Aaron Adams

*City Manager
City of Temecula*

Patricia Lock Dawson

*Mayor
City of Riverside*

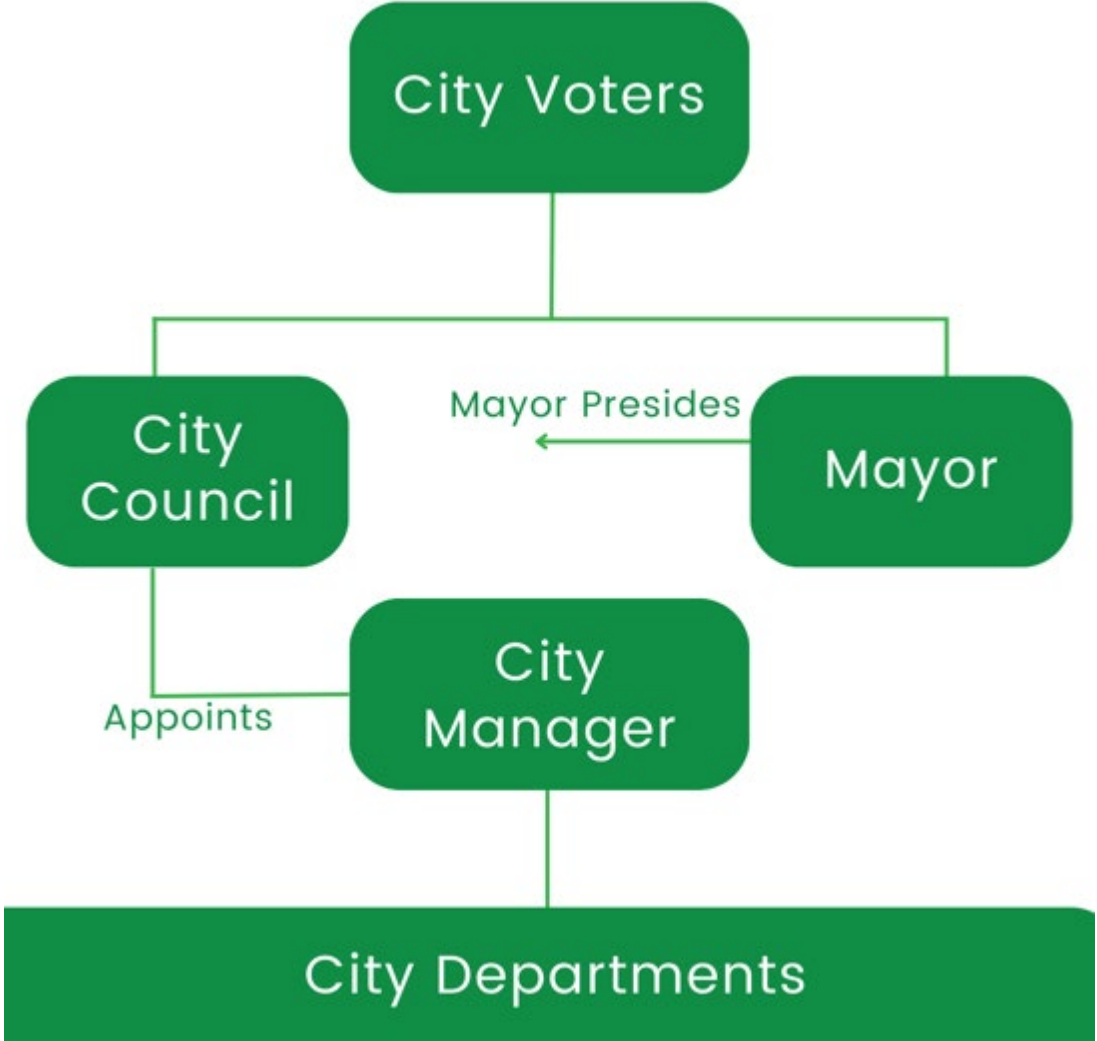

Background

Running cities is complex and challenging, even when things are going well. The key to a thriving city is establishing productive relationships between the city council and the city manager.

Choosing the right person for the city manager role and providing them with proper support and guidance is the most crucial responsibility of the city council. When done correctly, it can yield significant results for the organization and the community.

Council-Manager Form of Government
